

New Resolve of C. of C. Is Interpretative

Directors of the Chamber of Commerce this week placed a clarifying interpretation on all resolutions which have been previously passed by the body when they passed a new resolution that no previous action on their part shall be interpreted as having taken sides in any controversy involving legal action.

It was the sense of the meeting this week that it is not the function of the board of directors to condemn or approve any action which has been placed before a court of law and equity.

Previously the board had passed a resolution endorsing the action of the Arlington Street Improvement association in connection with the matter of the Arlington street pavement. Members of the board informally declared that the resolution should not be construed to mean that they went so far as to endorse or condemn any action which only a court could decide. As a result a resolution of interpretation was passed. It was made plain by members that the new resolution in no way affects their endorsement of the efforts of the Arlington Street Improvement association, but merely absolves the board from the charge of having taken sides in litigation between one group of Torrance citizens and another.

Commencement Exercises Here on Wednesday

The Torrance High School commencement exercises will be held at the American Legion hall on Wednesday evening, June 27.

An excellent musical program has been prepared. Rev. Thomas Grice will deliver the commencement address. Following is the personnel of the senior class: Bertha Fix, Helen Tiffany, Mary Jessome and Frank Higgins.

The high school is making itself felt in the community. Many of the former graduates are now filling positions efficiently in the factories and in the stores in Torrance. With the completion of the new high school, any course that the pupils desire will be offered. It is hoped that a large crowd will be present to hear the excellent program, and to congratulate the young people upon the finishing of this part of their education.

P. E. Soon Will Lay Fine Stone on Cabrillo Ave.

The Pacific Electric right of way on Cabrillo avenue will soon be improved. A word order for the laying of fine stone beside and between the tracks has gone through according to word received by the Chamber of Commerce. The placing of fine stone along this right of way will eliminate dust and improve the appearance of the street.

Home Paper Attracts People to Torrance

That the home paper is of great interest to men and women who live outside of Torrance and wish to keep in touch with progress here is evidenced by letters continually received by The Herald from would-be subscribers.

Bert Carroll, 4881 Compton avenue, Los Angeles, writes this week as follows: "Please forward one dollar's worth of Torrance Herald I am much interested in the welfare of that thriving little city. Wishing you much success in your new enterprise, I want to go on record as a subscriber."

From Twin Falls, Idaho, E. J. Studivant writes as follows: "I will be in Torrance right after the Fourth of July. We would like to live in Torrance and especially so since we own a little property there. The paper reads like you have a real city and a real bunch of business men, so our first trip after getting to Long Beach will be to Torrance and I shall look you up."

J. A. Blair Opens An Office in Torrance

In order that he could give his personal attention to the rapid developments of the Torrance oil field, J. A. Blair has opened an office in the Rappaport building. Mr. Blair has been affiliated with the oil business for many years, coming originally from Oklahoma to Los Angeles. Recently he has been connected with E. A. Ingram of Long Beach in Signal Hill properties. Mr. Blair states that he will specialize in leases and royalties, but his office will also handle general real estate. He is a qualified "realtor."

Attention Parents: Free Clinic For Children

I AM giving the hours between two and four, on Fridays, to the children, without any cost to you. I am doing this for two reasons. The first is because I love children; the second reason is that I was thankful when CHIROPRACTIC changed my son, at twelve, from the frail, little white-faced, bespectacled youngster that he was, into a sturdy lad who did not have to wear glasses and better yet, he did not have to lose a third of each school year because of colds. CHIROPRACTIC did this for my son and has carried him safely through serious illnesses; it will do the same for your children. There are thousands of parents as grateful as I am for CHIROPRACTIC. Send your little ones over for an examination and adjustment on Fridays.
